

### [NWEA Instructional Connections](#)

We collaborate with the industry's most extensive array of instructional partners to help schools and districts get more from tools they're already using

### [Recovery and Goal Setting Data File Description](#)

Identify if and to what extent student achievement has changed across the period of interrupted learning (one page [Recovery and Goal Setting File Overview](#))

### [Khan Academy and MAP Accelerator](#)

Using MAP Growth and Khan Academy, educators can find content and recommended lessons, or have personalized learning pathways generated automatically based on their students' individual RIT scores in our co-developed tool, MAP Accelerator.

### [Newsela](#)

NWEA has partnered with Newsela to automatically set students' reading levels based on MAP Growth RIT scores. Students will see content at their Just Right Reading Level so educators can automatically differentiate and tailor instruction.

### [Remote Testing Resources](#)

Gathering accurate and reliable data about your students is more important than ever. NWEA is prepared to support you in using MAP Growth and MAP Reading Fluency to better understand what your students are ready to learn. We have curated a collection of resources intended to support your remote use planning. Those resources represent best practices and recommendations from districts that have had successful test administration.

### [Professional Learning Workshop Overview Documents](#)

This page contains short overview documents for key NWEA professional learning workshops. Review these to know what will be covered in a session you've been scheduled to attend and how to prepare
